OVERVIEW

Textile Products, Inc. (TPI), operating as a Kordsa company, is a specialty textile manufacturer, experienced in the development and production of custom fabrics. Founded in 1976, the manufacturing unit of TPI is well equipped to design, develop and supply specialty woven and braided materials to fulfill a broad range of customer needs.

TPI has been an industry leader in developing a variety of weaving techniques. These include the ability to handle fragile, difficult to weave yarns, along with techniques to produce 3-D fabrics, Polar Weaves and Bias Fabrics.

TPI offers a wide range of standard fabrics as well as custom design textiles engineered to meet specific requirements including: Uni-directional, Bi-directional, Multi-directional and Hybrid fabrics and tapes. TPI also has considerable experience with all available yarns, including Carbon-Standard, Intermediate and High Modulus, Aramid-Kevlar™ & Twaron™, Ceramic-Nextel™ & Nicalon™, Quartz, Metallic Wires, Nickel Coated Carbon and Commingled Thermoplastics.

TPI's specially designed fabrics are used in many applications, ranging from Aerospace, Transportation, Communications, Marine, Industrial, Recreational and Medical.
