

SUSTAINABLE PROCUREMENT

As of the end of 2019, we have integrated the sustainability performance of suppliers into our current supplier evaluation system as an evaluation criterion. We encourage our suppliers, who represent an essential link in our value chain, to improve their sustainability performance. In 2025, we have once again been included CDP's Supplier Engagement Assessment (SEA) A List for the fifth time.

In 2025, we invited 72 global and local suppliers from different locations to participate in the Kordsa Annual Supplier Sustainability Survey.

We provided training on sustainable procurement to 43% of all supply chain employees across all locations.

As of 2025, our performance table follows.

Sustainable Procurement Performance Report
